

## **Senti Biosciences Participates in the Virtual Investor “What’s Your Story” Summer Spotlight On-Demand Conference**

**– Video webcast now available on-demand**

SOUTH SAN FRANCISCO, Calif., July 22, 2025 (GLOBE NEWSWIRE) -- Senti Biosciences, Inc. (Nasdaq: SNTI) (“Senti Bio”), a clinical-stage biotechnology company developing next-generation cell and gene therapies using its proprietary Gene Circuit platform, today announced that [Timothy Lu, M.D., Ph.D., Senti Bio’s Co-Founder and Chief Executive Officer](#) of Senti, participated in the [Virtual Investor “What’s Your Story” Summer Spotlight On-Demand Conference](#).

As part of the event, Dr. Lu dove deeper into his dedication to the Company, how he got to where he is today and provided insight into why he is so passionate about the Company’s programs in development.

The on-demand video webcast is now available on [virtualinvestorco.com](http://virtualinvestorco.com) as well as the [Events](#) page under the [Investors](#) section of the Company’s website ([sentibio.com](http://sentibio.com))

### **About Senti Bio**

Senti Bio is a biotechnology company developing a new generation of cell and gene therapies for patients living with incurable diseases. To achieve this, Senti Bio is leveraging its synthetic biology platform to engineer Gene Circuits into new medicines with enhanced precision and control. These Gene Circuits are designed to precisely kill cancer cells, to spare healthy cells, to increase specificity to target tissues, and/or to be controllable even after administration. The Company’s wholly-owned pipeline is comprised of cell therapies engineered with Gene Circuits to target challenging liquid and solid tumor indications. Senti’s Gene Circuits have been shown preclinically to work in both NK and T cells. Senti Bio has also preclinically demonstrated the potential breadth of Gene Circuits in other modalities and diseases outside of oncology, and continues to advance these capabilities through partnerships.
