**Securities registered pursuant to Section 12(b) of the Act:**

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Class A common stock, par value \$0.0001 per share	DYNS	Nasdaq Capital Market

---

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
		Emerging growth company	<input checked="" type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of December 9, 2021, there were 23,715,500 shares of the registrant's Class A common stock, par value \$0.0001 per share, and 5,750,000 shares of the registrant's Class B common stock, par value \$0.0001 per share, issued and outstanding.

---

## EXPLANATORY NOTE

Dynamics Special Purpose Corp. (the “Company”) is filing this Form 10-Q/A (this “Amendment”) to amend its Quarterly Report on Form 10-Q, originally filed with the Securities and Exchange Commission (the “SEC”) on August 6, 2021 (the “Original Form 10-Q”) on account of the restatement of the Company’s unaudited interim financial statements and related footnote disclosures as of and for the period ended June 30, 2021.

### ***Background of Restatement***

As previously reported on its Form 8-K filed with the SEC on December 10, 2021, the management of the Company, in consultation with the audit committee of the Company, concluded on December 9, 2021, that the Company’s unaudited interim financial statements and related footnote disclosures as of and for the period ended June 30, 2021 filed in the Original Form 10-Q contained errors relating to the classification between temporary equity and permanent equity of the shares of the Company’s Class A common stock subject to redemption, which the Company initially presented a portion of as permanent equity, and has determined should be classified as temporary equity. In light of this error, it was determined that it is appropriate to amend and restate the Company’s Original Form 10-Q.

### ***Effects of Restatement***

See Note 2 to the Notes to unaudited Interim Financial Statements included in Part I, Item 1 of this Amendment for additional information on the restatement and the related financial statement effects. The Company does not expect these changes will have any impact on its cash position and cash held in the trust account established in connection with the Company’s initial public offering.

### ***Internal Control Considerations***

The Company’s management has concluded that in light of the classification error described above, a material weakness exists in the Company’s internal control over financial reporting and that the Company’s disclosure controls and procedures were not effective. For a discussion of management’s consideration of the material weakness identified, see Part I, Item 4, “Controls and Procedures” of this Amendment.

Except as described above, this Amendment does not amend, update or change any other disclosures in the Original Filing. In addition, the information contained in this Amendment does not reflect events occurring after the filing of the Original Filing and does not modify or update the disclosures therein, except as specifically identified above. Among other things, forward-looking statements made in the Original Filing have not been revised to reflect events, results, or developments that occurred or facts that became known to us after the date of the Original Filing, other than the restatement, and such forward-looking statements should be read in conjunction with our filings with the SEC, including those subsequent to the filing of the Original Filing.

**DYNAMICS SPECIAL PURPOSE CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**  
**(AS RESTATED)**

**NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS**

Dynamics Special Purpose Corp. (the “Company”) is a blank check company incorporated in Delaware on March 1, 2021. The Company was formed for the purpose of entering into a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities (a “Business Combination”). The Company is not limited to a particular industry or geographic region for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of June 30, 2021, the Company had not commenced any operations. All activity for the period from March 1, 2021 (inception) through June 30, 2021 relates to the Company’s formation and the initial public offering (“Initial Public Offering”), which is described below. The Company will not generate any operating revenues until after the completion of a Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering. The Company has selected December 31 as its fiscal year end.

The registration statement for the Company’s Initial Public Offering was declared effective on May 25, 2021. On May 28, 2021, the Company consummated the Initial Public Offering of 23,000,000 shares of Class A common stock (the “Public Shares”), including 3,000,000 shares of Class A common stock that were issued pursuant to the underwriter’s exercise of their over-allotment option in full, at \$10.00 per Public Share, generating gross proceeds of \$230,000,000, which is discussed in Note 4.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 715,500 shares of Class A common stock (the “Private Placement Shares”) at a price of \$10.00 per Private Placement Share in a private placement to Dynamics Sponsor LLC (the “Sponsor”), generating gross proceeds of \$7,155,000, which is described in Note 5.

Transaction costs amounted to \$13,198,430 consisting of \$4,600,000 of underwriting fees, \$8,050,000 of deferred underwriting fees, and \$548,430 of other offering costs.

Following the closing of the Initial Public Offering on May 28, 2021, an amount of \$230,000,000 (\$10.00 per Public Share) from the net proceeds of the sale of the Public Shares in the Initial Public Offering and the sale of the Private Placement Shares was placed in a trust account (the “Trust Account”), and will be invested only in U.S. government securities with maturities of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds held in the Trust Account, as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Placement Shares, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete a Business Combination with one or more target businesses that together have an aggregate fair market value of at least 80% of the value of the Trust Account (as defined below) (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into an initial Business Combination. The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended (the “Investment Company Act”).

The Company will provide its stockholders with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion, subject to applicable law and stock exchange listing requirements. The stockholders will be entitled to redeem their shares for a pro rata portion of the amount held in the Trust Account (initially anticipated to be

**DYNAMICS SPECIAL PURPOSE CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**  
**(AS RESTATED)**

\$10.00 per share), calculated as of two business days prior to the completion of a Business Combination, including any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations.

The Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon consummation of such Business Combination and a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required under applicable law or stock exchange listing requirements and the Company does not decide to hold a stockholder vote for business or other reasons, the Company will, pursuant to its amended and restated certificate of incorporation (the “Amended and Restated Certificate of Incorporation”), conduct the redemptions pursuant to the tender offer rules of the Securities and Exchange Commission (“SEC”), and file tender offer documents with the SEC prior to completing a Business Combination. If the Company seeks stockholder approval in connection with a Business Combination, the holders of the Founder Shares (as defined in Note 6) have agreed to vote their Founder Shares and any Public Shares purchased in or after the Initial Public Offering in favor of approving a Business Combination and to waive their redemption rights with respect to any such shares in connection with a stockholder vote to approve a Business Combination. Additionally, each public stockholder may elect to redeem their Public Shares without voting, and if they do vote, irrespective of whether they vote for or against the proposed Business Combination.

Notwithstanding the foregoing, if the Company seeks stockholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Company’s Amended and Restated Certificate of Incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the Public Shares without the Company’s prior written consent.

The initial stockholders have agreed to waive (a) their redemption rights with respect to any Founder Shares and Public Shares they hold in connection with the completion of an initial Business Combination, (b) their redemption rights with respect to any Founder Shares, Private Placement Shares and Public Shares they hold in connection with a stockholder vote to approve an amendment to the Amended and Restated Certificate of Incorporation to modify the substance or timing of the Company’s obligation to allow redemption in connection with an initial Business Combination or to redeem 100% of the Public Shares if the Company has not consummated an initial Business Combination within 24 months from the closing of the Initial Public Offering or with respect to any other provisions relating to stockholders’ rights or pre-initial Business Combination activity and (c) their rights to liquidating distributions from the Trust Account with respect to any Founder Shares and Private Placement Shares they hold if the Company fails to complete an initial Business Combination within 24 months from the closing of the Initial Public Offering. However, if the initial stockholders acquire Public Shares in or after the Initial Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period (as defined below).

The Company will have until May 28, 2023 to complete a Business Combination (the “Combination Period”). If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter subject to lawfully available funds therefor, redeem the Public Shares at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining stockholders and board of directors, dissolve and liquidate, subject in each case to the Company’s obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

The underwriter has agreed to waive its rights to its deferred underwriting commission (see Note 7) held in the Trust Account in the event the Company does not complete a Business Combination within in the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be

**DYNAMICS SPECIAL PURPOSE CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**  
**(AS RESTATED)**

available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Public Share (\$10.00).

In order to protect the amounts in the Trust Account, the Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below (i) \$10.00 per Public Share or (ii) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per Public Share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriter of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (other than the Company's independent registered accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

### Liquidity

As of June 30, 2021, the Company had \$1,096,895 in cash held outside of the Trust Account and working capital of 1,823,361.

The Company's liquidity needs prior to the consummation of the Initial Public Offering were satisfied through the proceeds of \$25,000 from the sale of the Founder Shares, and a loan of up to \$300,000 under an unsecured and non-interest bearing promissory note (see Note 6). Subsequent to the consummation of the Initial Public Offering, the Company's liquidity will be satisfied through the net proceeds from the private placement held outside of the Trust Account and proceeds made available to the Company under the Working Capital Loan (as defined in Note 6).

Based on the foregoing, management believes that the Company will have sufficient working capital and borrowing capacity to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using the funds held outside of the Trust Account for paying existing accounts payable and accrued liabilities, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, and structuring, negotiating and consummating the Business Combination.

### Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations, and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

### NOTE 2. RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS

In accordance with Accounting Standards Codification ("ASC") 480, *Distinguishing Liabilities from Equity* ("ASC 480"), subtopic 10, section S99, redemption provisions not solely within the control of the Company require common stock subject to redemption to be classified outside of permanent equity. The Company had previously classified a portion of the Public Shares in permanent equity. Although the Company did not specify a maximum redemption threshold, its charter provides that currently, the Company will not redeem its Public Shares in an amount that would cause its net tangible assets to be less than \$5,000,001. The Company restated its financial statements to classify all Public Shares as temporary equity and any related impact, as the threshold in its charter would not change the nature of the underlying shares as redeemable and thus would be required to be disclosed outside of permanent equity.

The reclassification of amounts from permanent equity to temporary equity result in non-cash financial statement corrections and will have no impact on the Company's current or previously reported cash position, operating expenses or total operating, investing or financing cash flows. In connection with the change in presentation for the Class A common stock subject to possible redemption, the Company has revised its earnings per share calculation to allocate income and losses shared pro rata between Class A and Class B shares. This presentation contemplates a Business Combination as the most likely outcome, in which case, Class A and Class B shares share pro rata in the income and losses of the Company.

The following tables summarize the effect of the restatement on each financial statement line item as of the dates, and for the periods, indicated:

	June 30, 2021		
	As Previously Reported	Adjustments	As Restated

<b>Supplemental disclosures of non-cash investing and financing activities</b>			
Class A common stock subject to possible redemption	\$ 218,774,320	\$(218,774,320)	\$ —
Accretion of Class A common stock to redemption amount	\$ —	\$ 13,181,867	\$ 13,181,867

<sup>(1)</sup> Prior to the change in presentation for the Class A common stock subject to possible redemption, the Company applied to two class method of earnings per share, allocating net income between redeemable Class A common stock and non-redeemable Class A and Class B common stock. As such, a portion of the Class A common stock was included in the weighted average shares outstanding of Class B common stock in the As Previously Reported balances.

**NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The accompanying unaudited condensed financial statements of the Company are presented in conformity with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the SEC. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented. The accompanying unaudited condensed financial statements should be read in conjunction with the Company's final prospectus for its Initial Public Offering as filed with the SEC on May 27, 2021, as well as the Company's Current Reports on Form 8-K, as filed with the SEC on May 28, 2021 and June 4, 2021. The interim results for the period from March 1, 2021 (inception) through June 30, 2021 are not necessarily indicative of the results to be expected for the year ending December 31, 2021 or for any future periods.

**Emerging Growth Company**

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

**DYNAMICS SPECIAL PURPOSE CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**  
**(AS RESTATED)**

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

#### **Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ from those estimates.

#### **Cash and Cash Equivalents**

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of June 30, 2021.

#### **Investments Held in Trust Account**

As of June 30, 2021, the assets held in the Trust Account were comprised of U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with maturities of 185 days or less, or investments in money market funds that invest in U.S. government securities and generally have a readily determinable fair value, or a combination thereof. When the Company's investments held in the Trust Account are comprised of U.S. government securities, the investments are classified as trading securities. When the Company's investments held in the Trust Account are comprised of money market funds, the investments are recognized at fair value. Trading securities and investments in money market funds are presented on the condensed balance sheets at fair value at the end of each reporting period. Gains and losses resulting from the change in fair value of these securities are reported in the statements of operations. The estimated fair values of investments held in the Trust Account are determined using available market information.

#### **Class A Common Stock Subject to Possible Redemption**

All of the 23,000,000 shares of Class A common stock sold as part of the Units in the Initial Public Offering contain a redemption feature which allows for the redemption of such Public Shares in connection with the Company's liquidation, if there is a stockholder vote or tender offer in connection with the Business Combination and in connection with certain amendments to the Company's second amended and restated certificate of incorporation. In accordance with SEC and its staff's guidance on redeemable equity instruments, which has been codified in Accounting Standards Codification ("ASC") 480-10-S99, redemption provisions not solely within the control of the Company require common stock subject to redemption to be classified outside of permanent equity. Therefore, all Public Shares have been classified outside of permanent equity.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable common stock to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable common stock are affected by charges against additional paid in capital and accumulated deficit.

As of June 30, 2021, the Class A common stock subject to possible redemption reflected in the condensed balance sheet are reconciled in the following table:

Gross proceeds	\$230,000,000
Less:	
Issuance costs allocated to Class A common stock	(13,181,867)
Plus:	
Accretion of carrying value to redemption value	13,181,867
<b>Class A common stock subject to possible redemption</b>	<b><u>\$230,000,000</u></b>

#### **Offering Costs Associated with the Initial Public Offering**

The Company complies with the requirements of ASC 340-10-S99-1 and SEC Staff Accounting Bulletin Topic 5A—Expenses of Offering. Offering costs consist principally of professional and registration fees incurred through the balance sheet date that are related to the Initial Public Offering. Offering costs directly attributable to the issuance of an equity contract to be classified in equity are recorded as a reduction in equity. Offering costs for equity contracts that are classified as assets and liabilities are expensed immediately. Accordingly, as of June 30, 2021, offering costs in the aggregate of \$13,198,430 have been charged to temporary equity (consisting of a \$4,600,000 underwriting fee, \$8,050,000 of deferred underwriting fees, and \$548,430 of other offering costs).

**DYNAMICS SPECIAL PURPOSE CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**  
**(AS RESTATED)**

**Income Taxes**

The Company follows the asset and liability method of accounting for income taxes under ASC 740, *Income Taxes* (“ASC 740”). Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of June 30, 2021. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

The provision for income taxes was deemed to be de minimis for the period from March 1, 2021 (inception) through June 30, 2021.

**Net Loss Per Common Share**

Net loss per common share is computed by dividing net loss by the weighted-average number of shares of common stock outstanding during the period. As the Public Shares are considered to be redeemable at fair value, and a redemption at fair value does not amount to a distribution different than other stockholders, Class A and Class B common stock are presented as one class of stock in calculating net loss per share. As a result, the calculated net loss per share is the same for Class A and Class B shares of common stock. As of June 30, 2021, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into shares of common stock and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the periods presented.

The following table reflects the calculation of basic and diluted net loss per common share (in dollars, except per share amounts):

	<u>Three Months Ended June 30,</u>		<u>For the Period from March 1, 2021</u>	
	<u>2021</u>		<u>(Inception) Through June 30, 2021</u>	
	<u>Class A</u>	<u>Class B</u>	<u>Class A</u>	<u>Class B</u>
Basic and diluted net loss per share:				
Numerator:				
Net loss	\$ (127,752)	\$ (78,314)	\$ (117,755)	\$ (89,489)
Denominator:				
Basic and diluted weighted average shares outstanding	8,600,126	5,271,978	6,467,864	4,915,289
Basic and diluted net loss per share	\$ (0.01)	\$ (0.01)	\$ (0.02)	\$ (0.02)

**DYNAMICS SPECIAL PURPOSE CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**  
**(AS RESTATED)**

**Concentration of Credit Risk**

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

**Fair Value of Financial Instruments**

The Company applies ASC Topic 820, *Fair Value Measurement* (“ASC 820”), which establishes a framework for measuring fair value and clarifies the definition of fair value within that framework. ASC 820 defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Company’s principal or most advantageous market in an orderly transaction between market participants on the measurement date. The fair value hierarchy established in ASC 820 generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions that market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity’s own assumptions based on market data and the entity’s judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

The carrying amounts reflected in the balance sheet for cash, prepaid expenses and accrued offering costs approximate fair value due to their short-term nature.

Level 1 — Assets and liabilities with unadjusted, quoted prices listed on active market exchanges. Inputs to the fair value measurement are observable inputs, such as quoted prices in active markets for identical assets or liabilities.

Level 2 — Inputs to the fair value measurement are determined using prices for recently traded assets and liabilities with similar underlying terms, as well as direct or indirect observable inputs, such as interest rates and yield curves that are observable at commonly quoted intervals.

**DYNAMICS SPECIAL PURPOSE CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**  
**(AS RESTATED)**

Level 3 — Inputs to the fair value measurement are unobservable inputs, such as estimates, assumptions, and valuation techniques when little or no market data exists for the assets or liabilities.

See Note 9 for additional information on assets and liabilities measured at fair value.

**Recent Accounting Standards**

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company's financial statements.

**NOTE 4. INITIAL PUBLIC OFFERING**

The registration statement for the Company's Initial Public Offering was declared effective on May 25, 2021. On May 28, 2021, the Company completed its Initial Public Offering of 23,000,000 shares of Class A common stock, including 3,000,000 shares of Class A common stock that were issued pursuant to the underwriter's exercise of its over-allotment option in full, at \$10.00 per Public Share, generating gross proceeds of \$230,000,000.

**NOTE 5. PRIVATE PLACEMENT**

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 715,500 Private Placement Shares at a price of \$10.00 per Private Placement Share, generating gross proceeds of \$7,155,000. A portion of the proceeds from the sale of the Private Placement Shares has been added to the net proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Shares held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law).

**NOTE 6. RELATED PARTY TRANSACTIONS**

**Founder Shares**

On March 8, 2021, the Sponsor was issued 5,750,000 shares (the "Founder Shares") of Class B common stock for an aggregate price of \$25,000. The Founder Shares included an aggregate of up to 750,000 shares of Class B common stock subject to forfeiture by the Sponsor to the extent that the underwriter's over-allotment option was not exercised in full or in part, so that the Sponsor would own, on an as-converted basis, 20% of the Company's issued and outstanding shares after the Initial Public Offering (excluding the Private Placement Shares) (assuming the Sponsor does not purchase any Public Shares in the Initial Public Offering). The underwriter fully exercised the over-allotment option on May 28, 2021; thus, these 750,000 Founder Shares are no longer subject to forfeiture.

**Promissory Note - Related Party**

On March 8, 2021, the Company issued an unsecured promissory note to the Sponsor (the "Promissory Note"), pursuant to which the Company could borrow an aggregate of up to \$300,000 to cover expenses related to the Initial Public Offering. The Promissory Note was non-interest bearing and was payable on the earlier of December 31, 2021 or the consummation of the Initial Public Offering. In April 2021, the Company borrowed \$250,000 under the Promissory Note which was repaid on May 26, 2021.

**Related Party Loans**

In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds held in the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination is not completed, the Company may use a portion of the proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be

**DYNAMICS SPECIAL PURPOSE CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**  
**(AS RESTATED)**

used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. Up to \$2,000,000 of such Working Capital Loans may be convertible into shares at a price of \$10.00 per share at the option of the lender. The share would be identical to the Private Placement Shares.

**Administrative Support Agreement**

The Company entered into an agreement, commencing on the effective date of the Initial Public Offering, to pay the Sponsor up to a total of \$10,000 per month for office space, administrative and support services. Upon the completion of an initial Business Combination, the Company will cease paying these monthly fees. To date, the Company has not exercised its option to use such services.

**NOTE 7. COMMITMENTS AND CONTINGENCIES**

**Registration Rights**

The holders of the Founder Shares, Private Placement Shares and any Class A common stock issuable upon conversion of the Working Capital Loans will be entitled to registration rights pursuant to a registration and stockholder rights agreement to be signed prior to or on the effective date of the Proposed Public Offering. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders will have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of an initial Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

**Underwriters Agreement**

The Company granted the underwriter a 45-day option to purchase up to 3,000,000 additional shares of Class A common stock to cover over-allotments at the Initial Public Offering price, less the underwriting discounts and commissions. The underwriters exercised the over-allotment option in full on May 28, 2021.

The underwriter was paid a cash underwriting fee of \$0.20 per share, or \$4,600,000 in the aggregate, upon the closing of the Initial Public Offering. In addition, \$0.35 per share, or \$8,050,000 in the aggregate will be payable to the underwriter for deferred underwriting commissions. The deferred fee will become payable to the underwriter from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

**NOTE 8. STOCKHOLDER'S EQUITY**

**Preferred stock** — The Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. As of June 30, 2021, there were no shares of preferred stock issued or outstanding.

**Class A common stock** — The Company is authorized to issue 100,000,000 shares of Class A common stock with a par value of \$0.0001 per share. Holders of Class A common stock are entitled to one vote for each share. As of June 30, 2021, there were 23,715,500 shares of Class A common stock issued and outstanding, including 23,000,000 shares of Class A common stock subject to possible redemption.

**Class B common stock** — The Company is authorized to issue 10,000,000 shares of Class B common stock with a par value of \$0.0001 per share. Holders of Class B common stock are entitled to one vote for each share. As of June 30, 2021, there were 5,750,000 shares of Class B common stock issued and outstanding. Of the 5,750,000 shares of Class B common stock outstanding, up to 750,000 shares were subject to forfeiture to the Company by the Sponsor for no consideration to the extent that the underwriter's over-allotment option was not exercised in full or in part, so that the initial stockholders would collectively own 20% of the Company's issued and outstanding common stock after the Initial Public Offering (excluding the Private Placement Shares). The over-allotment option was exercised in full on May 28, 2021; thus, these shares are no longer subject to forfeiture.

**DYNAMICS SPECIAL PURPOSE CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**  
**(AS RESTATED)**

Common stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders. Holders of the Class A common stock and holders of the Class B common stock will vote together as a single class on all matters submitted to a vote of stockholders, including any vote in connection with an initial Business Combination.

The shares of Class B common stock will automatically convert into shares of Class A common stock at the time of an initial Business Combination on a one-for-one basis (subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like), and subject to further adjustment. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in the Initial Public Offering and related to the closing of an initial Business Combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of all shares of common stock outstanding upon the completion of the Initial Public Offering (excluding the Private Placement Shares), plus (ii) all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with an initial Business Combination (excluding any shares of Class A common stock or equity-linked securities issued, or to be issued, to any seller in an initial Business Combination and any Private Placement Shares issued to the Sponsor or its affiliates upon conversion of Working Capital Loans).

**NOTE 9. FAIR VALUE MEASUREMENTS**

The following table presents information about the Company's financial assets that are measured at fair value on a recurring basis as of June 30, 2021, and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

<u>Description</u>	<u>Amount at Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
<b>June 30, 2021</b>				
Assets				
Investments held in Trust Account:				
U.S. Treasury Securities	\$ 230,000,965	\$230,000,965	\$ —	\$ —

**NOTE 10. SUBSEQUENT EVENTS**

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the condensed financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the condensed financial statements.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

References in this report (the "Quarterly Report") to "we," "us" or the "Company" refer to Dynamics Special Purpose Corp. References to our "management" or our "management team" refer to our officers and directors, and references to the "Sponsor" refer to Dynamics Sponsor LLC. The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with the unaudited condensed financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

The Company is restating its unaudited interim financial statements included in the Company's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2021 in this Form 10-Q/A. See Note 2 for additional information.

### Special Note Regarding Forward-Looking Statements

This Quarterly Report includes "forward-looking statements" that are not historical facts and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Quarterly Report including, without limitation, statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" regarding the Company's financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as "expect," "believe," "anticipate," "intend," "estimate," "seek" and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management's current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company's final prospectus for its Initial Public Offering (as defined below) filed with the U.S. Securities and Exchange Commission (the "SEC"). The Company's securities filings can be accessed on the EDGAR section of the SEC's website at [www.sec.gov](http://www.sec.gov). Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

### Overview

We are a blank check company incorporated on March 1, 2021 as a Delaware corporation and formed for the purpose of effectuating a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this Quarterly Report as our "initial business combination". We intend to effectuate our initial business combination using cash from the proceeds of our initial public offering (the "Initial Public Offering") and the private placement of the Private Placement Shares (as defined below), the proceeds of the sale of our shares in connection with our initial business combination (pursuant to forward purchase agreements or backstop agreements we may enter into following the consummation of the Initial Public Offering or otherwise), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, or a combination of the foregoing.

### Results of Operations

We have neither engaged in any operations nor generated any operating revenues to date. Our only activities for the period from March 1, 2021 (inception) through June 30, 2021 were organizational activities, those necessary to prepare for the Initial Public Offering, described below, and, after the Initial Public Offering, identifying a target company for a business combination. We do not expect to generate any operating revenues until after the completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents held after the Initial Public Offering. We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the period from March 1, 2021 (inception) through June 30, 2021, we had a net loss of \$207,244, which resulted from operating and formation costs of \$154,044 and franchise tax expense of \$54,165 partially offset by interest and dividend income on investments in Trust Account of \$965.

## [Table of Contents](#)

For the three months ended June 30, 2021, we had a net loss of \$206,066, which resulted from operating and formation costs of \$152,866 and franchise tax expense of \$54,165 partially offset by interest and dividend income on investments in Trust Account of \$965.

### **Liquidity and Capital Resources**

On May 28, 2021, we consummated the Initial Public Offering of 23,000,000 shares of Class A common stock (the “Public Shares”), including 3,000,000 Public Shares that were issued pursuant to the underwriters’ exercise of their over-allotment option in full, at \$10.00 per Public Share, generating gross proceeds of \$230,000,000.

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 715,500 shares of Class A common stock at a price of \$10.00 per share (the “Private Placement Shares”), generating gross proceeds of \$7,155,000. A portion of the proceeds from the sale of the Private Placement Shares has been added to the net proceeds from the Initial Public Offering held in the trust account. If we do not complete our initial business combination within 24 months of the closing of the Initial Public Offering, the proceeds from the sale of the Private Placement Shares held in the trust account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law).

For the period from March 1, 2021 (inception) through June 30, 2021, net cash used in operating activities was \$934,675, which was primarily due to changes in working capital of \$726,466 and our net loss of \$207,244.

For the period from March 1, 2021 (inception) through June 30, 2021, net cash used in investing activities of \$230,000,000 was the result of the amount of net proceeds from the Initial Public Offering and the private placement sale of shares being deposited to the Trust Account.

Net cash provided by financing activities for the period from March 1, 2021 (inception) through June 30, 2021 of \$232,031,570 was comprised of \$225,400,000 in proceeds from the issuance of shares in the Initial Public Offering net of underwriter’s discount paid, \$7,155,000 in proceeds from the issuance of shares in a private placement to our sponsor, and proceeds from the issuance of a promissory note to our Sponsor of \$250,000, offset by the payment of \$523,430 for offering costs associated with the Initial Public Offering and repayment of the outstanding balance on the promissory note to our sponsor of \$250,000.

As of June 30, 2021, we had cash of \$1,096,895 held outside the trust account. We intend to use the funds held outside the trust account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a business combination.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (less taxes payable and deferred underwriting commissions), to complete our initial business combination. We may withdraw interest income (if any) to pay income taxes, if any. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account. We expect the interest income earned on the amount in the trust account (if any) will be sufficient to pay our income taxes. To the extent that our equity or debt is used, in whole or in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor, or certain of our officers or directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts, but no proceeds from our trust account would be used for such repayment. Up to \$2,000,000 of such loans may be

## [Table of Contents](#)

convertible into shares of the post-business combination entity at a price of \$10.00 per share at the option of the lender. The shares would be identical to the Private Placement Shares. The terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor, or certain of our officers or directors as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

### **Off-Balance Sheet Arrangements**

We did not have any off-balance sheet arrangements as of June 30, 2021.

### **Contractual Obligations**

#### *Promissory Note - Related Party*

On March 8, 2021, the Company issued an unsecured promissory note to the Sponsor (the "Promissory Note"), pursuant to which the Company could borrow an aggregate of up to \$300,000 to cover expenses related to the Initial Public Offering. The Promissory Note was non-interest bearing and was payable on the earlier of December 31, 2021 or the consummation of the Initial Public Offering. In April 2021, the Company borrowed \$250,000 under the Promissory Note which was repaid on May 26, 2021.

#### *Underwriters Agreement*

The Company granted the underwriter a 45-day option to purchase up to 3,000,000 additional shares of Class A common stock to cover over-allotments at the Initial Public Offering price, less the underwriting discounts and commissions. The underwriters exercised the over-allotment option in full on May 28, 2021.

The underwriter was paid a cash underwriting fee of \$0.20 per share, or \$4,600,000 in the aggregate, upon the closing of the Initial Public Offering. In addition, \$0.35 per share, or \$8,050,000 in the aggregate will be payable to the underwriter for deferred underwriting commissions. The deferred fee will become payable to the underwriter from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

### **Critical Accounting Policies**

The preparation of condensed financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies:

#### *Net Loss Per Common Share*

Net loss per common share is computed by dividing net loss by the weighted-average number of shares of common stock outstanding during the period. As the Public Shares are considered to be redeemable at fair value, and a redemption at fair value does not amount to a distribution different than other stockholders, Class A and Class B common stock are presented as one class of stock in calculating net loss per share. As a result, the calculated net loss per share is the same for Class A and Class B shares of common stock. As of June 30, 2021, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into shares of common stock and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the periods presented.

#### *Class A Common Stock Subject to Possible Redemption*

We account for our Class A common stock subject to possible redemption in accordance with the guidance in Accounting Standards Codification ("ASC") 480, Distinguishing Liabilities from Equity. Shares of Class A common stock subject to mandatory redemption is classified as a liability instrument and measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) is classified as temporary equity. At all other times, common stock is classified as stockholders' equity. Our Class A common stock features certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, Class A common stock subject to possible redemption is presented at redemption value as temporary equity, outside of the stockholders' equity section of our condensed balance sheets. Immediately upon the closing of the Initial Public Offering, the Company recognized the accretion from initial book value to redemption amount value. The change in the carrying value of the redeemable Class A common stock subject to possible redemption resulted in charges against additional paid-in capital and accumulated deficit.

#### *Recent Accounting Standards*

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our condensed financial statements.

## [Table of Contents](#)

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

This item is not applicable as we are a smaller reporting company.

### **Item 4. Controls and Procedures**

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under Securities Exchange Act of 1934, as amended (the “Exchange Act”) is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

#### *Evaluation of Disclosure Controls and Procedures*

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures. In connection with the preparation of our financial statement as of June 30, 2021, we re-evaluated our prior position on accounting for redeemable common shares. Based upon their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, due to the Company’s restatement of its May 28, 2021 and June 30, 2021 financial statements to reclassify the Company’s redeemable common stock, the Company’s disclosure controls and procedures (as defined in Rules 13a-15 (e) and 15d-15 (e) under the Exchange Act) were not effective as of June 30, 2021.

Management concluded that a material weakness in internal control over financial reporting existed relating to the accounting treatment for complex financial instruments. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company’s annual or interim financial statements will not be prevented or detected on a timely basis. This material weakness described above resulted in the restatement of the Company’s audited financial statement as of May 28, 2021 and unaudited financial statements as of and for the periods ended June 30, 2021.

#### *Changes in Internal Control Over Financial Reporting*

During the most recently completed fiscal quarter, there has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. In light of the restatement of our prior period financial statements included in Note 2 of the accompanying financial statements of this Quarterly Report, we plan to enhance our processes to identify and appropriately apply applicable accounting requirements to better evaluate and understand the nuances of the complex accounting standards that apply to our financial statements. Our plans at this time include providing enhanced access to accounting literature, research materials and documents and increased communication among our personnel and third-party professionals with whom we consult regarding complex accounting applications. The elements of our remediation plan can only be accomplished over time, and we can offer no assurance that these initiatives will ultimately have the intended effects.

## **PART II - OTHER INFORMATION**

### **ITEM 1.LEGAL PROCEEDINGS**

None.

### **ITEM 1A.RISK FACTORS**

Factors that could cause our actual results to differ materially from those in this Quarterly Report are any of the risks described in our final prospectus for our Initial Public Offering filed with the SEC on May 27, 2021. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. In addition, we identified the following additional risks.

***In connection with the recent restatement of our financial statements, our management has concluded that our disclosure controls and procedures were not effective as of June 30, 2021 due to a material weakness in internal control over financial reporting solely related to our accounting for complex financial instruments. If we are unable to maintain an effective system of disclosure controls and procedures and internal control over financial reporting, we may not be able to accurately report our financial results in a timely manner, which may adversely affect investor confidence in us and materially and adversely affect our business and financial results.***

Management concluded that it was appropriate to restate the Company’s previously issued audited balance sheet as of May 28, 2021 filed as Exhibit 99.1 to the Company’s Current Report on Form 8-K filed with the SEC on June 4, 2021 and the Company’s unaudited interim financial statements included in the Company’s Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2021, filed with the SEC on August 6, 2021 due to an error in presentation of a portion of Class A common stock subject to redemption as permanent equity. As part of such process, we identified a material weakness in our internal control over financial reporting, solely related to our accounting for complex financial instruments.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected and corrected on a timely basis. Effective internal controls are necessary for us to provide reliable financial reports and prevent fraud. We expect to take steps to remediate the material weakness, but there is no assurance that any remediation efforts will ultimately have the intended effects.

If we identify any new material weaknesses in the future, any such newly identified material weakness could limit our ability to prevent or detect a misstatement of our accounts or disclosures that could result in a material misstatement of our annual or interim financial statements. In such case, we may be unable to maintain compliance with securities law requirements regarding timely filing of periodic reports in addition to applicable stock exchange listing requirements, investors may lose confidence in our financial reporting and our stock price may decline as a result. We cannot assure you that the measures we have taken to date, or any measures we may take in the future, will be sufficient to avoid potential future material weaknesses.

**ITEM 2.UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

None.

**ITEM 3.DEFAULTS UPON SENIOR SECURITIES**

None.

**ITEM 4.MINE SAFETY DISCLOSURES**

Not applicable.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER  
PURSUANT TO RULE 13A-14(A) UNDER THE SECURITIES EXCHANGE ACT OF 1934,  
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Mostafa Ronaghi, certify that:

1. I have reviewed this Amendment No. 1 to the quarterly report on Form 10-Q of Dynamics Special Purpose Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, is made known to us by others within those entities, particularly during the period in which this report is being prepared; and
  - b) (Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313);
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
